A PERFECTLY LEVEL TAMP, EVERY TIME

Engineered to replace the pressure of manual tamping, to deliver precision and consistency - every time you tamp.

SAY FAREWELL TO SORE ARMS

Tamping is an important part of a barista's craft, but doing it by hand hundreds of times a day damages shoulders and wrists. So why not let PUQ Press deliver the perfect tamp for you?

CHOOSE YOUR OWN TAMPING PROFILE

Want to control your tamping for the kind of coffee you're making? Or would you rather prioritise a fast workflow? Our pre-set tamping options enable you to adjust for speed, pressure and a number of tamps.

CLEAN AND UNDERSTATED DESIGN

As a tool made by baristas, for baristas - we care about looks just as much as you do. We've kept things clean, opting for tactile buttons and a discrete display.

THE PROFILE SWITCH

Allows baristas to seamlessly toggle between different pressure profiles. With just a simple press, you can switch settings to optimize tamping for either silky smooth milk-based beverages or delicate espressos, ensuring perfect consistency.

THE MIRROR TRAY

Integrated into the drip tray and strategically angled to give baristas a clear view of the tamper base. This brand new feature ensures that any residual coffee grounds are quickly noticed and cleaned, maintaining the machine's performance and hygiene.

FOR THE LOVE OF CRAFT

At PUQ, our core mission revolves around the barista. We actively listen to the market, crafting tools that support—not replace—the unique skills of coffee professionals. Our products are designed to empower baristas, enhancing their craft while taking care of the complexities of coffee preparation.

Master your craft, and transform every coffee interaction into an extraordinary experience.
